

SIP Trunking

SIP Trunking Solution Powered by 14IP, Simple & Reliable

We make it easy to order, provision, and manage your services in real-time, providing a smooth, easy, business-friendly transition to the cloud. You can have your new phone service provisioned, installed, and turned on remotely in just minutes.

Metered and Call Path Subscriptions

14IP offers 2 types of call paths. Pay only for minutes with Metered trunks, or pay by the channel based on concurrent call paths with unlimited inbound and outbound minutes.

- ✓ Mix and match metered and call path trunks
- ✓ Month-to-month service with no obligation or save with a 12, 36, or 60 month plan.
- ✓ Share your voice services across multiple locations to reduce costs
- ✓ Choose your own numbers or port existing phone numbers to us
- ✓ Local, Toll-Free, International, and Vanity phone numbers available
- ✓ Open Standards Support for any platform

COST SAVINGS

Save when switching from your traditional telephone provider to 14IP.

FAILOVER AND REDUNDANCY

Backed by a fully Geo-Redundant infrastructure, we provide failover and redundancy to circumvent outages.

SELF SERVICE PORTAL

Assign new DIDs and spin up a new SIP trunk within minutes.

INTEGRATED FAX SERVICES

With our SendFax.to solution, send and receive faxes from a web interface, email, or your local fax machine.

SMS/MMS SUPPORT

14IP's SIP Trunking allows for sending and receiving text-only messages, and messages with images, videos, and other multimedia content.

ADVANCED E911 INTEGRATION

Seamless e911 integration that provides compliance and peace of mind for "Kari's Law" and "Ray Baum Act."
